Location	Melbourne, Victoria, Australia
KEPCO Sales	Nick W. - 0494 581 838
Sourcing & accounts	hello@kepcoglobal.com.au
Website	kepcoglobal.com

Why KEPCO exists

Waiting weeks for quotes, chasing separate suppliers and putting incorrect deliveries right take time away from the job. KEPCO was built to bring sourcing and follow-up through one contact.

Bring the whole list

Pipework, fittings, valves, irrigation, site machinery, trailers, fasteners, grounds tools and consumables. Include bagged building materials, structural grout, coatings and maintenance chemicals in the same enquiry. Send quantities, photos or references, your delivery location and required date.

Clear quotes and delivery follow-up

We agree the next update while sourcing. Product specifications, quantities and delivery instructions are confirmed with you before ordering. Quotes set out pricing, freight, availability and terms; alternatives need approval. Contact KEPCO if delivery needs follow-up.

Supplier onboarding

Email your vendor registration form and required supporting-document checklist. Once approved, bring varied requirements through the same purchasing relationship. Insurance, certification and credit terms are confirmed individually; your organisation's approval requirements continue to apply.

Company details supplied by KEPCO. This overview is not a certificate of insurance, product compliance or approved-vendor status. Contact KEPCO directly for payment details.
